

From Concerns → Decisions Required

Numbers	Valuation	Fairness	Structure
Expanded scope → Multi-platform + IP	\$40M floor \$80-100M execution upside	Participation = Protection	No transfer → Only new issuance (NJ compliant)

**All concerns are structurally addressed*

Aligned Execution

- Maintain ownership %
- Participate in upside
- Accelerate exit timeline
- Protect collective value

Fragmented Outcome

- Dilution via new issuance
- Slower execution
- Increased risk to exit value
- Value erosion potential

AT THIS STAGE, INACTION IS ALSO A DECISION — WITH CONSEQUENCES.
