

Enterprise Executive Operating Model

Governance, Capital Discipline
& Execution at Scale

Why This Model Exists

Scaling Without Losing Control

Clear accountability boundaries enable growth while maintaining governance oversight and execution precision.

Investor Confidence Through Clarity

Transparent operating structure reduces risk perception and demonstrates capital discipline across all levels.

Separation of Governance vs Execution

Distinct mandates prevent role confusion and create appropriate checks and balances.

Executive Spine

Clear accountability boundaries at each level prevent overlap and ensure focused execution.

Managing Director Charter

Governance & Fiduciary Oversight

Board & Shareholder Governance

Liaison between investors and operating company. Board meeting preparation and fiduciary responsibility.

Capital Stewardship & Dilution Control

Capital allocation oversight. Fundraising strategy. Protecting shareholder value through disciplined deployment.

Risk, Compliance & Fiduciary Oversight

Enterprise risk management. Regulatory compliance. Audit coordination and governance controls.

Chief Executive Officer Charter

Enterprise Strategy & Market Growth

Enterprise Strategy & OKRs

Annual strategic planning. Company-wide objectives and key results. Long-term competitive positioning.

Market Expansion & Ecosystem Growth

Geographic and vertical expansion. Partnership and alliance strategy. Brand and market perception.

P&L Ownership

Enterprise financial performance. Revenue growth and profitability targets. Operating margin accountability.

General Manager Charter

Execution & Revenue Realization

Quarterly Execution

QBR ownership and delivery cadence. Cross-functional coordination. Resource allocation and sprint planning.

Revenue Realization

Pipeline conversion and bookings. Sales and delivery alignment. Revenue forecasting and attainment.

Delivery & Customer Outcomes

Project delivery excellence. Customer satisfaction and retention. Operational quality and velocity.

CXO Functional Map

Executive Leadership Structure

Two-in-a-Box Operating Model

Paired leadership creates mutual accountability, reduces handoff friction, and maintains governance oversight while accelerating decision velocity.

Two-in-a-Box Pairings

Product, Technology & Data Ownership

Shared ownership ensures product-market fit is supported by technical excellence and powered by data intelligence.

Revenue & Market Engine

Integrated Go-to-Market Motion

Ownership transitions are explicitly defined. No handoff gaps.

Capital & Governance Controls

Clear separation between governance oversight and operational execution prevents conflicts and ensures fiduciary responsibility.

RACI Discipline

Responsible, Accountable, Consulted, Informed

	Capital Allocation	Product Strategy	Quarterly Execution	Market Expansion
MD				
CEO				
GM				
CPO				
CTO				
CFO				

R = Responsible (does the work) A = Accountable (final decision) C = Consulted (input sought) I = Informed (kept updated)

Clear accountability. No overlaps. No blind spots.

Headcount & Cost Philosophy

Traditional Approach

Large leadership teams ✗

Role duplication ✗

Fixed cost structure ✗

Our Discipline

✓ Lean leadership

✓ Scalable structure

✓ Capital efficiency

Every role must be capital-efficient and directly contribute to revenue, product, or governance.

Target: <15% of revenue in G&A

Exec team: 8-12 roles

Two-in-a-box reduces headcount by 30%

Why Investors Like This Model

De-Risked Execution

Clear accountability and two-in-a-box oversight reduces execution risk and governance blind spots.

Clear Accountability

No ambiguity about who owns what. RACI framework prevents gaps and overlaps.

Built to Scale

Structure supports growth from Series A through IPO without major reorganization.

“We invest in models that remove uncertainty. This framework provides the structural predictability required for massive growth.” – Lead Partner, Tier 1 VC

Managing Director: Governance Layer

Board Interface & Capital Stewardship

Core Mandate

Board Liaison & Meeting Prep

Fundraising & Cap Table

Audit & Compliance Oversight

Key Relationships

Success Metrics

Clean audits

Fundraise execution

Board satisfaction

Investor confidence

MD owns governance clarity—not day-to-day operations.

Chief Executive Officer: Strategy Layer

Enterprise Vision & Market Growth

Core Mandate

Annual Strategic Plan & OKRs

Market & Ecosystem Strategy

P&L & Financial Performance

Key Relationships

Success Metrics

Revenue growth

Market share

Strategic partnerships

OKR attainment

CEO owns the what and why—GM owns the how and when.

General Manager: Execution Layer

Quarterly Delivery & Revenue Realization

Core Mandate

QBR Planning & Delivery

Pipeline & Revenue Conversion

Customer Delivery & Satisfaction

Key Relationships

CEO / Strategy

GM

CRO + Delivery Teams

CPO + CTO / Product-Tech

Success Metrics

Bookings

Revenue attainment

Delivery velocity

NPS / retention

GM owns the quarter-translating strategy into tangible outcomes.

Governance & Operating Cadence

Distinct cadences with clear escalation paths—no confusion about which forum owns which decisions.

Execution with Discipline. Scale with Control.

Enterprise Operating Model for Investor-Grade Execution
