

Cielo Epic

Cognitive Operating System for Connected Enterprises

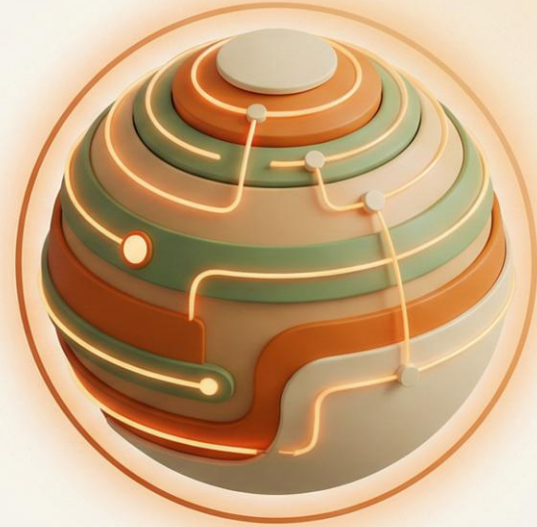

Enterprises Are Connected — But Not Intelligent

Today

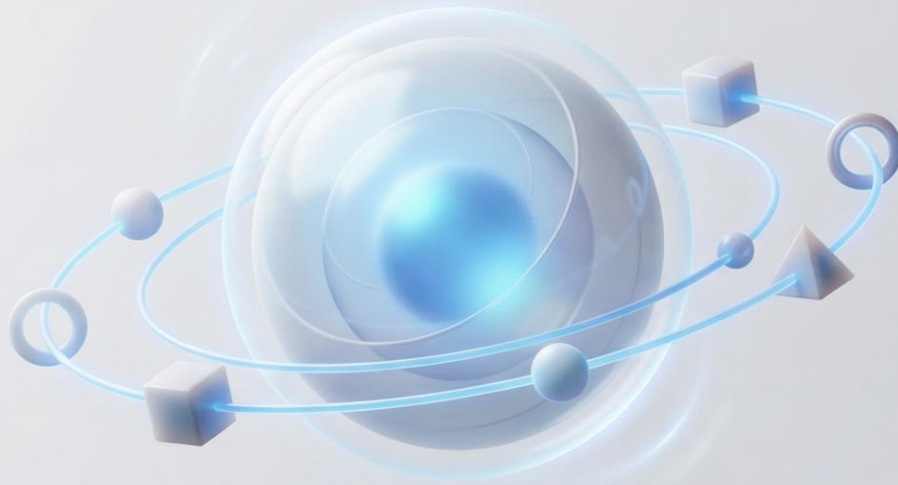

Needed

Fragmented systems across operations
Dashboards explain past, not decisions
AI bolted on, not embedded

One Cognitive Platform That Runs the Enterprise

- ◆ Unified AI + IoT + ESG + Experience
- ◆ From monitoring to autonomous action
 - Built for scale and ROI

Platform Architecture

Modular EPICs — Revenue Engines

Each EPIC solves complete problems
Customers start with one, expand naturally
Modular pricing scales with value

A Cognitive Operating System, Not a Dashboard

Others

Cielo Epic

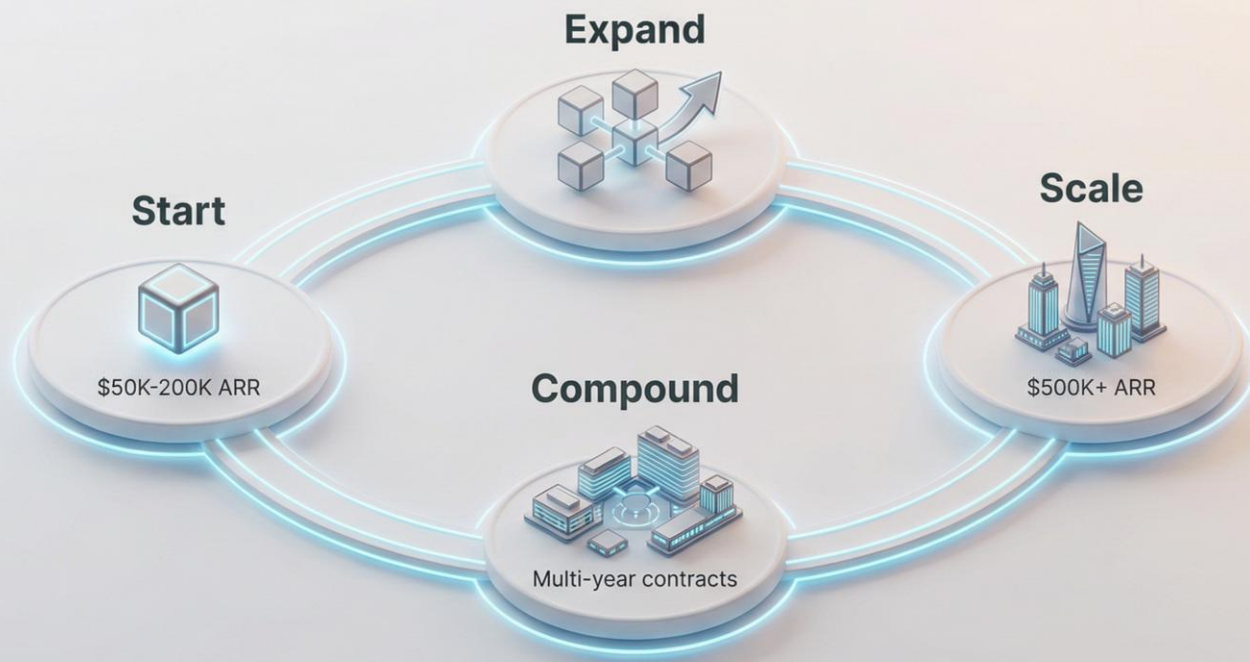

- AI-native, not retrofitted analytics
- ESG + Energy + Ops unified
- Drives decisions, operates future

Massive, Accelerating Market

Commercial Buildings & Hospitality
Infrastructure & Smart Cities
North America + Middle East focus

Scalable SaaS Revenue Model

EPIC-based subscriptions

Asset and portfolio pricing

Natural expansion economics

Early Validation & Momentum

Enterprise Pilots
3 Major Hotel Groups

Energy Savings
22-31% Reduction

ESG Compliance
Automated Reporting
