

Inspironics Corporation

Exit Execution Alignment

60–90 Day Value Realization Plan

We Are At a Critical Inflection Point

Progress

- Platform Expansion:
CX → CK → CD → CE → Mints
- Data Room ~60–80% Ready
- Broker Conversations Initiated.

Risk

- Microsoft CSP Continuity
- Ajith Settlement Pending
- Fragmented Bridge Contributions
- Founder Bandwidth Constraint

Execution in next 60–90 days determines outcome.

From \$12M Baseline → \$100M Potential

Valuation expansion driven by platform + IP + data readiness.

Exit Readiness Depends on Data Room Strength

**Completed /
Near Complete**

CX IP – IEEE-grade
artifacts (~90%)

CK MVP (~60%)

CD (~60%)

In Progress

CE Platform (~50%)

DevSecOps +
Architecture

Gaps

Financials (CPA)

Legal Structuring

Documentation
Completeness

Requires focused funding + execution support (60–90 days)

Clarifying Key Concerns

“Are Numbers Bloated?”

- Based on platform expansion (6 products vs. 2 earlier)
- Comparable to platform multiple models
- Supported by Data Room trajectory.

“Is Valuation Real?”

- Current: ~\$40M achievable floor
- Upside: ~\$80–100M with execution
- Not speculative — execution-linked.

Transparency + structured validation via brokers.

Bridge Participation – Fair & Lawful Structure

PARTICIPATE

- Maintain ownership %
- Participate in upside
- Priority alignment.

DO NOT PARTICIPATE

- No forced share transfer
- Dilution via new issuance
- Standard NJ-law compliant mechanism.

Fairness is ensured through participation, not redistribution.

Ajith Settlement – Closure Path

Immediate closure required to unlock exit readiness

Broker Activation Strategy

Target & Positioning

- **Target:** Wedbush + alternatives
- **Positioning:** ESG + AI + Platform Play.

Fee Structure

- **Retainer:** minimal upfront
- **Success Fee:** performance-linked majority.

Approval required to initiate formal engagement

Stabilizing Execution

Current State

Fragmented, reactive.

Future State

Funded, focused execution.

\$12.8K Immediate Need $\div$ **~\$2.5K** per stakeholder

Lump sum runway removes execution friction.

Board Decisions Required Today

- ☐ Approve Data Room Funding Plan
- ☐ Approve Bridge Participation Structure
- ☐ Approve Ajith Settlement Path
- ☐ Approve Broker Engagement
- ☐ Approve Lump Sum Runway Pool
- ☐ Approve Legal + CPA Engagement
- ☐ Approve India Closure Plan
- ☐ Approve Exit Execution Timeline
- ☐ Confirm Board Continuity

Alignment Today → Value Realization Tomorrow.
