

Inspironics – Platform Convergence Driving 10x Valuation Expansion

From Fragmented Products → Integrated AI + ESG + IIoT Platform Ecosystem

LEFT ZONE

THEN — 6-12 Months Ago

- CX-focused product maturity (single platform narrative)
- Limited IP articulation
- Services + prototype perception
- Valuation anchored in execution risk

CENTER ZONE

**Multi-Platform Convergence
with Reusable Engineering +
Emerging IP Stack**

**\$80M-\$100M
Strategic Range**

**\$10-12M
Baseline**

Valuation uplift

RIGHT ZONE

NOW — Current State

4-Layer Platform Stack

Shift Achieved

**Product → Platform Ecosystem
Features → Architecture
Execution → IP-backed Value**

WHY THIS RE-RATING IS REAL

- Platform reuse: Hospitality → Commercial → Smart Infra
- Device + Data + AI + ESG integrated stack — rare combination
- IP formalization underway — buyer-grade data room artifacts
- Reduced build risk via 6-month execution maturity

Next 60-90 Days: Platform cohesion + IP completion → Broker-ready positioning → Valuation lock-in
