

Inspironics Corporation

ESG AI + IoT Platform Exit Opportunity

Strategic Valuation Range: \$90M–\$120M+

Executive Snapshot

Platform

Converged ESG + AI + IoT Platform

Applicability

Multi-Sector: Hospitality, Commercial, Smart Infra

Status

Data Room Nearing Completion

Process

60–90 Day Structured Exit Process

Problem & Market Opportunity

**Fragmented
Infrastructure
Systems**

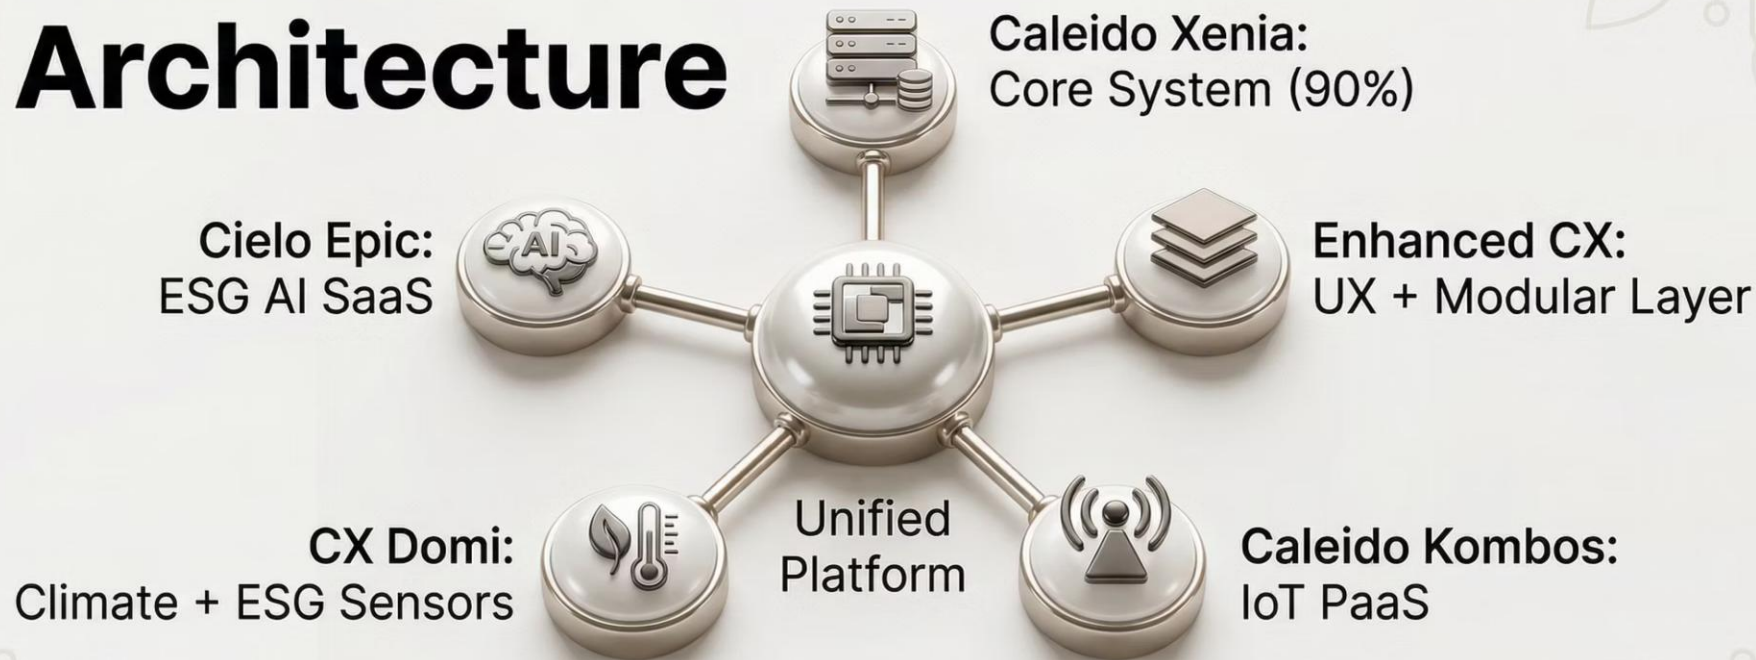

**Lack of Unified
ESG + AI Intelligence**

**Increasing Regulatory
& Sustainability Demands**

**Large global
opportunity
across real
estate +
infrastructure**

Platform Architecture

Unified platform — not point solutions.

Product Maturity & Data Room Status

CX Recovery —

90%

Kombos —

60% MVP

CX Domi —

60%

Cielo Epic —

50%

Patent Pipeline —

Ready

Structured data room enables rapid buyer due diligence.

IP & Defensibility

**IEEE-Grade
IP Artifacts**

Caleido Mints

**Epic
Engineering
Model**

**Modular +
Extensible
Architecture**

**Patent
Pipeline:
Active.**

Deep technical documentation supports valuation and due diligence.

Valuation Stack

Patents: \$12M

Cielo Epic: \$35M

Platform Layer: \$40M

CX Recovery: \$10M

**Total Valuation:
\$90M-\$120M+**

Strategic Buyer Fit

ESG Platforms

Accelerate sustainability product lines

IoT Platform Companies

Expand sensor and PaaS capabilities

Strong Synergy +
Integration Potential

Smart Infrastructure Players

Integrate real-time climate intelligence

Real Estate / REIT Tech

Monetize ESG at portfolio scale

Exit Framing

Structured process designed for speed, certainty, and strategic fit.

Why Now

Platform Convergence Achieved

All five modules integrated
into unified architecture

ESG + AI Premium Cycle

Buyer multiples elevated as
ESG mandates accelerate

Data Room Readiness

Diligence materials structured
for 60-day close

The window for maximum strategic premium is open now.

Risk vs. Upside

- IP base provides hard asset foundation
- Documented patent pipeline limits floor erosion
- Modular architecture reduces integration risk.

- Platform convergence commands strategic premium
- Cross-sector applicability multiplies TAM
- AI + ESG regulatory tailwinds extend runway.

Asymmetric opportunity: bounded downside, significant premium upside.

**Inspironics represents a rare ESG
AI + IoT convergence platform
ready for strategic acquisition.**

Inspironics Corporation

Data Room Access Available Upon NDA

Engagement Window: 60–90 Days
