

Inspironics Exit Execution – 60 Day Critical Alignment

LEFT PANEL

Where We Stand

Exit-Ready Narrative Established.

- **ESG Intelligence Layer** (scarce global category)
- **AIoT**: Predictive + Prescriptive + APM/OEE
- **Caleido Mints**: Loyalty + Wellness
- **2 Patent Candidates**: Platform + Engineering Framework.

Multi-Platform ESG + AIoT Company.

CENTER PANEL

Critical Risks

Runway Instability – Monthly survival vs. execution focus

Ajith Settlement – Blocking clean cap table

India-US Financial Cleanup – ₹65L + ₹96L exposure reconciliation

Financial Readiness – CPA/CA not fully re-engaged

Data Room Progress – Strong momentum, final structuring needed.

RIGHT PANEL

Next 60 Days

1.

Complete investor-grade, navigable data room

2.

Stabilize exit runway — not month-to-month

3.

Close Ajith Settlement

4.

Clean financials: US + India

5.

Engage Wedbush as exclusive broker.

\$12.8K Immediate Need
→ ~\$2.5K per Stakeholder.

Execution Risk is NOT Product — It is Runway Alignment.

Let's not let a \$100M outcome stall over \$10K decisions.
